BACKEND DEVELOPER / WORKING STUDENT

Jul. 2011 - Sep. 2017

- Implementing web apps, KPI logic and b2b logic in spring-* and rails
- Maintaining main notification system
- Dealing with design and migrations of various db systems
- Auto-scaling patterns, anti-trainwreck patterns, microservices, AWS and Behaviour Driven Development / automated testing approach
- Working in an international always-growing and -learning IT team using Scrum and Kanban

Developing a software for the pawn shop business

Berlin, Germany

SELF-EMPLOYED

2011 - 2013

- Development of a rich-client app in C# and .net

Studentenring

Berlin, Germany

AFTER-SCHOOL TUTOR

2009 - 2011

- Teaching students in mathematics

Experience

+ FIRST-STEPS EXPERIENCE

++ FREQUENT HANDS-ON EXPERIENCE

+++ LOTS OF EXPERIENCE

+++ AWS, CloudFormation and terraform
+++ k8s: cluster setup(EKS/kops), CI/CD, helm
+++ CI/CD, Spinnaker, Jenkins, Bitbucket Pipelines
+++ java, spring-*, hibernate, maven
+++ git
+++ AWS Kinesis, ActiveMQ
+++ bash

++ mysql, mongodb, influxdb
++ serverless functions
++ C#
+ golang, node.js

+++ Docker
+++ AWS ECS
+++ microservices
+++ groovy, rails <= 3.*, gradle
+++ unit/integration testing, TDD/BDD
+++ postgresql
+++ linux, macOS, Windows

++ python, numpy, scipy, ruby
++ .net
++ puppet
+ Machine Learning

Education

Technische Universität Berlin

Berlin, Germany

B.Sc.(1.8) + M.Sc.(CANCELED WITH 1.2) ENGINEERING MATHEMATICS (TECHNOMATHEMATIK)

Oct. 2007 - 2017

- Foundation of mathematical background: Linear Algebra, Analysis, Differential Equations, Numerics, Probability Theory
- Some education in programming, algorithms and technical engineering
- Specialization in Differential Equations Theory, -Modelling and -Numerics and Non-Linear Optimization
- Exploring the scientific field of Machine Learning
